UNITED STATES LAND COURT.

Consideration of Juan Estevan Garcia de Noriega Grant Has Occupied the Attention of the Court Today.

The court of private land claims is occupied today with the consideration of the Juan Estevan Garcia de Noriega grant, No. 254, situated along El Rito in Rio Arriba county.

This grant was made in 1735 by the lieutenant governor of the Spanish province of New Mexico, acting as governor in the absence of the viceroy.

After the title had been fully vested, Gov. Cruzate returned and undertook to revoke and annul the grant. It appears, however, that the grantee continued in possession and the property has remained in the ownership of the descendants of the descendants. The interesting questions are raised as to the power of the governor to revoke summarily and without acquiescence of the grantee, as well as the legal authority of the lieutenant governor.

Messrs. Catron & Gortner represent the claimants, the Pope the government and Mr. G. H. Howard certain adverse holdings and claims.

District Court Notes.

Mr. A. M. Bergere, the new District court clerk, made his bond this morning, which was approved by Judge McEffe and he was sworn into office at 10 a. m., relieving C. H. Gildersleeve, Esq., and the books, records and files of the office are now being turned over. It is not known yet who will be appointed deputy clerk. There are several candidates for the position. Among these is Mr. Geo. A. Johnson, of this city, who is a competent man in every respect and who, if appointed, would make a good office.

There are also several candidates for the interpretors of the court and among these are Hon. Jose D. Sena, of this city, who made a very good record as a member of the Thirty-second legislature, and Mr. Alexander Read, who removed here a short time ago from Rio Arriba county, and who is strongly recommended by Hon. Thomas D. Burns.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25 cents. The genuine has L. B. Q. on each tablet.

MINOR CITY TOPICS.

Drive down the protruding nails in the sidewalks about town.

U. S. weather bureau forecast for Mexico: Generally fair tonight and Saturday.

No rubbish should be permitted to clutter and disfigure the thoroughfares of the Capital city.

Plenty of snow in the mountains means plenty of water for irrigation purposes next summer.

There will be the regular weekly meeting of Aztlan lodge No. 3, I. O. O. F., this evening at 7:30 sharp.

The average drunk and disorderly, after reflecting one night in jail, is well qualified to drive down protruding nails and removing street obstructions. Invitations were issued yesterday for a social hop, which will be given under the auspices of the "Bon Ami" club, on next Thursday evening, February 17, in Armory hall.

The business men of Santa Fe should not for a moment overlook the importance of securing daily mail and stage connections, as well as direct telephone communication, with Bland.

Willie Salazar, brother of Alderman Manuel Salazar, was bitten by a vicious dog on Palace avenue, on Wednesday night. The dog that bites passers-by on the public streets should either be killed or securely chained.

The board of education will meet in a few days for the purpose of considering a special report of the committee on ways and means. It is hoped that this report will show that there are sufficient available funds to justify continuing the schools after February 25.

The New Mexican has recently added a complete embossing plant to its fine printing establishment and is now prepared to fill orders for all kinds of embossed letter heads, note heads, statements, cards, etc., in the best possible style and in any color desired.

Clean cotton rags for machine purposes wanted at this office.

Two car loads of brick were on yesterday shipped from the territorial penitentiary to the territorial insane asylum at Las Vegas, to be used in completing the addition to the asylum, now in course of erection. This shipment was made by Superintendent Bergmann at the request of Governor Otero.

After the concert night before last, an elegant supper was served at the Claire hotel to Miss Albright and five or six of her friends. Mr. and Mrs. Page B. Otero were among the favored ones. When it is explained that each plate represented a \$5 note the discriminating reader will be able to judge as to the quality of the viands served. It was a good place to be when the bell rang.

Charles Wagner, the well known local furniture dealer and undertaker, has just received a large and complete stock of undertaking goods and has ordered a brand new hearse from Cincinnati. Mr.

Wagner says that he advertises in the New Mexican because the New Mexican always works for Santa Fe and besides he knows advertising pays.

Chairman Dudrow, of the board of county commissioners, has in charge the contemplated and much needed repairs on Don Gaspar avenue bridge. County Treasurer Cartwright says that an exciting race may now be looked for between Chairman Dudrow and Superintendent Bergmann, of the penitentiary, to see whether the fence on the north side of the capitol is moved before the Don Gaspar avenue bridge is repaired.

The Rose Stillman Theatre company will open an engagement for three nights at the Santa Fe opera house, on next Monday evening, at popular prices. This is one of the cleverest companies that is now traveling on the road and will give the people of the Capital city a real feast of the pleasurable dainties that all lovers of good plays enjoy. The Rose Stillman company is cordially commended by the press everywhere and is undoubtedly first-class in all respects.

A new coat of paint on the Palace hotel building would improve the property and make it more of a thing of joy and beauty.

No one questions that the streets should be cleaned and the sidewalks fixed, but it is not done.

DIRECTIONS TO PUEBLO INDIANS.

Agent Cooper Wires Head Men of San Felipe and Santo Domingo Pueblos to Obey Orders of Judge Crumpacker.

Captain C. L. Cooper, agent for the Pueblo and Jicarilla Indians, in this city, on yesterday wired to the head men of the San Felipe and Santo Domingo pueblos, directing them not to interfere in any shape or manner with the surveyors or the surveying operations of the Albuquerque Land & Irrigation company and to respect the letter and tenor of the temporary injunction granted by Judge Crumpacker, restraining the inhabitants of these pueblos and others on the Rio Grande from interfering or annoying the surveyors or putting a stop to the survey in course for the proposed ditches of the said irrigation company. He also advised the officers of the irrigation company of the course pursued by him in the matter. There is not the least danger of interference or trouble and there is no doubt whatever that the Pueblos in question will carry out Captain Cooper's directions to the very letter.

To Rent—Furnished.

A pleasant up-stairs room, facing plaza. Inquire at this office.

PERSONAL MENTION.

Hon. Pedro Perea, of Bernalillo, is a guest at the Palace.

George H. Lohman, a hardy miner, is here from Madrid. He stops at the Bon Ton.

C. A. Scheuch returned yesterday from a week's visit to friends and relatives at Taos.

Hon. Solomon Luna, collector of Valencia county, is here on business and registers at the Palace.

Mr. Sam C. Watts, of Kansas City, reports himself serene and comfortable at the Exchange hotel.

Abe Gold, the general merchant on lower Frisco street, is threatened with an attack of pneumonia.

Charlie King came up from his ranch at Galisteo to spend a few days with his friends. He registers at the Bon Ton.

Messrs. J. Sullivan, of St. Louis, and C. F. von Bergen, of Boston, are among the commercial tourists at the Claire.

Antonio Martinez and Alberto Trujillo, citizens of Anton Chico, are in the city on business. They are registered at the Bon Ton.

Miss Carrie Hesch now gracefully and accurately manipulates the switchboard at the office of the Santa Fe Telephone exchange.

Mr. S. S. Mathers, special agent of the general land office, returned to his Santa Fe headquarters from San Miguel county last night and resumed his place among the numerous guests of the Claire.

Commercial men at the Palace: W. W. Goldschmidt, H. H. Shaw, G. S. Wood, Denver; O. M. Fairchild, St. Louis; W. G. Reimer, Philadelphia.

Miss Jennie Call, who has been quite ill at Las Vegas Hot Springs for several days, is reported much better and will return to her home in this city in a few days.

J. Muhelets, of Cerrillos, came up from the south last night with a sick coal miner from Madrid whom he placed under the tender care of the Sisters at St. Vincent's, and then placed his name on the Exchange register.

Mr. T. J. Helm, general agent of the Denver & Rio Grande railroad, with headquarters at Santa Fe, came in from the south last night suffering with a bad cold that threatens to terminate in congestion of the lungs. He immediately summoned a physician to attend him at his room in the Claire.

Mr. C. H. Gildersleeve, late clerk of the District court in this city, says that he intends to take a rest for a few weeks and will then resume active work in his profession. He will probably spend the vacation he has assigned himself at Ojo Caliente or at the famous Sulphurs over in the Valles country.

U. S. Deputy Mineral Surveyor H. T. Brown, of Golden, came in from the south last night and registered as usual at the Exchange. Mr. Brown recently made a careful inspection of the numerous mammoth ledges in the Golden Cochiti and he distinctly declares that the district named promises better on the surface than any other he knows of in the country. He predicts that several thousand people will soon make their headquarters at Bland.

Oysters and Fish.

Fresh oysters and fish received every Friday by Bischoff & Muller. Prices at the lowest possible notch.

LAND LONG IN CONTROVERSY.

After Much Litigation Manuel Chavez Has Secured Title to El Gallo Springs Ranch in Valencia County.

Mr. Manuel Chavez, of San Rafael, in Valencia county, made final proof on a homestead entry on Tuesday last before the local land office. The entry contains about 80 acres and within its lines is one of the finest and largest springs in the territory, the El Gallo. This spring supplies the town of San Rafael, a community of from 600 to 700 inhabitants with water. The case is a very interesting one. The land in question has been in controversy more or less since 1872 and Manuel Chavez became a claimant to it in 1889. During that year an old entry, which had covered the tract and had been made in 1872, was canceled and Chavez laid claim to it as an actual and bona fide homestead settler. The Atlantic & Pacific railroad claimed the land as a part of its land grant. A legal fight commenced, Colonel Frost, of this city being Chavez's attorney. This fight was carried on for eight years, the company locating the land with script and employing the best legal talent to save it for itself on account of the magnificent water supply thereon. The case was three times before the commissioner of the general land office and twice before the secretary of the interior and Colonel Frost's legal points were finally and fully sustained by the department, the land awarded to Chavez, and the case closed two months ago. Mr. Chavez, after making his final proof, Tuesday, went home a happy man and is now the owner of one of the most valuable pieces of property in the territory.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25 cents. The genuine has L. B. Q. on each tablet.

The Weather.

The weather yesterday was somewhat cloudy, with light to fresh variable winds. The maximum temperature reached was 41 and the minimum 23 degrees. The mean relative humidity was 54 per cent. Generally fair weather is indicated for tonight and tomorrow.

HE WAS ALLOWED GOOD TIME.

Tomas Armiijo Released from Penitentiary This Afternoon, Having Shortened His Sentence Over a Year by Good Conduct.

This afternoon, Tomas Armiijo, sent to the penitentiary from San Miguel county upon a conviction on an indictment charging him with robbery from the person, in May, 1894, was released after having served three years and nine months of the sentence imposed, he having gained one year and three months good time, having conducted himself during his term of confinement in an exemplary manner. It is stated that on the commitment issued by Judge Smith in this case, the prisoner was to receive no allowance for good time, but as the law is peremptory and says convicts shall receive a good time allowance for good and obedient behavior, and as judges are not supposed to be superior to the law and as under the present administration the law governs and its mandates are being carried out, the man was allowed the term of one year and three months good time despite this, and released this afternoon. The action of the authorities in this case is to be commended. No matter how poor a man or how friendless he is entitled to the protection of the law and all the rights and privileges it accords every human being in New Mexico.

CATARH OF THE STOMACH.

A Pleasant Simple, But Safe Effective Cure for It.

Catarh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery rising, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headache, feeble appetite, nervousness and a general played out, languid feeling.

There is often a bad taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison the safest and best treatment is to use after each meal a tablet, composed of Diastase, Asperic Pepsin, a little Nux, Golden Seal and fruit acids.

These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia tablets, and, not being a patent medicine, can be used with perfect safety and assurance that a healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Boeber, of 2710 Dearborn St., Chicago, Ill., writes: "Catarh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom, passing backward into the throat, reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling.

Code of Civil Procedure.

Every practicing attorney in the territory should have a copy of the New Mexico Code of Civil Procedure, bound in separate form with alternate blank pages for annotations. The New Mexican Printing Company has such an edition on sale at the following prices: Leatherette binding, \$1.25; full law sheep, \$2; flexible morocco, \$2.50.

RED RIVER IS ALL RIGHT.

Hysterical Dispatches to Denver Papers Corrected by a New Mexican Correspondent—Credit to Whom Credit is Due.

Special Correspondence New Mexican. Red River, N. M., Feb. 9.—The Denver News of the 3d inst. has the following:

"Special to the News. 'Trinidad, Colo., Feb. 2.—Dr. Reed, the new president of the Red River Town & Mineral company, has a large force of men at work bridging Red river, in anticipation of the spring influx of miners. There will be 15 bridges constructed, and all the difficulties attending travel to Red River City will be overcome."

The natural inference from the above is that Dr. Reed or the Red River City Town & Mineral company are paying the bills for this road building—are hiring the men who are doing the work. The facts are that the work has all been donated by the miners of this district, and the "grub," powder, feed for teams, etc., have been donated or paid for by the merchants of Red River, Questa, Antonito, and La Jara and by Taos county, the commissioners having donated \$50. Dr. Reed, individually, gave \$30 to the expense fund, and has been quite active in getting the work done. Several items have appeared lately in various papers, written with the evident intention to create the impression that the town company has been very liberal (as their interests would justify) and outpouring in this road building, and other matters looking to the development of this district. In case Dr. Reed's subscription is finally charged up to the expense account against the company, then they will have contributed the magnificent sum of \$30—of the several hundred that have been contributed in labor and supplies. Credit to whom credit is due—let the town company take their \$20 worth. As I have before said, the road is partly completed, several crossings bridged and several more avoided by changing the road, and it is greatly improved. No work is being done at present but it will be resumed as the weather permits.

The same "special" further says: "The Red River board of trade is preparing literature for eastern distribution, showing the mineral prospect of the country."

About a year ago a so-called "board of trade" was organized and died. About the most important thing said "board of trade" accomplished during its short life was to procure a large supply of highly colored stationery. No meeting of the "board" has been held for nine or ten months and there is no "board of trade" authorized to "prepare literature for eastern distribution." If any alleged board of trade literature is going out, it is probably being sent by persons who are using the "board" stationery to increase their own private correspondence and business.

The man who writes these Trinidad "specials" about Red River ought to give his imagination a rest, and devote part of his time, at least, to ascertaining facts.

The Red River mining region is all right, the mineral is here and the mines will be opened up. The district will be developed by the hard and persistent work of the miners who are now here and the thousands yet to come, and not by the "talk" of town boomers. And the development of the mineral resources will build up the town, and the town company will reap a harvest. A town company cannot make a mineral region, but a development of mining district can and will build up a town. It will be the man with the pick and drill, backed by the capital of the mine operator who will do the developing and building up. The town promoter is a side issue, and while waiting to sell lots made valuable by the miner he ought to be somewhat modest in appropriating to himself credit for work done by others.
